

Christ's Church Academy  
is planning to resume daily  
on-campus instruction  
for all students on  
August 10, 2020

CCA Parents:

To ensure limited disruptions and enhanced health protocols as we prepare for a safe return to school, we would like to inform you that CCA has created a dedicated COVID-19 Team. The COVID-19 team has gathered research, made recommendations, and feels confident CCA is able to return to campus with the robust student life offerings for which Christ's Church Academy is known. While we will proceed with school on-campus as planned, it may look different as we adapt to new protocols to provide safety for our students and extended CCA family. Our promise to provide a high-quality educational experience, a nurturing environment, and Biblically based discipleship, both inside and outside of the classroom, remains unchanged.

The well-being of our entire community is a top priority. We strive to be good stewards of finances and are willing to invest sacrificially for essential resources needed to guard the safety of our on-campus community. We have purchased state-of-the-art cleaning equipment including electrostatic sprayers, foggers, and additional sanitizer stations, just to name a few. We are investing in additional staff positions to support adjustments due to class size. The ability for our staff to be fully equipped to sustain learning during this season is of vital importance. CCA will be expanding our staff training on tools, health safety, and daily protocols, as well as deploying additional staff resources to ensure we support learning and balance with other life needs.

CCA is grateful for the opportunity to come alongside our families and serve our students. We have strived for unity within our Eagle community. Each family has a different level of comfort, and their extended family situation is unique. One family may feel totally unfazed by COVID-19, but the child next to them in class has relatives with compromised immunities. We are striving to dwell as a community of grace, allowing each one to process as they feel is necessary.

2020 has been and will continue to be a different and difficult year. Our children are very resilient, however, they need to be surrounded by caring adults they can count on each day. In the midst of all of our other goals, CCA seeks to be a light in a dark world. We live in unprecedented times and we understand that there are many strong views as to what needs to be done globally, nationally, and locally. We ask our families to live in an understanding way with others who may have different views (1 Corinthians 8).

Looking forward to a fantastic school year.

Thank you!

Dr. Madison Nichols
