As a boy, Jadav Payeng was distressed by the destruction erosion was causing on his island home in India's Brahmaputra River. So, he began planting trees. What began as a small thicket of bamboo, grew over the years into a 1,300-acre forest filled with native plants and endangered animals. *The Boy Who Grew a Forest* is an inspiring true story that reminds us all of the difference a single person with a big idea can make.

\*Fill out the order form and return this along with payment to your child's school. In addition to having your book autographed, you may have it personalized. Please **PRINT** the name of the recipient in the field below:
