

Lower School Summer Reading

Summer of 2023

CCA Families,

Summer affords an excellent opportunity to sharpen reading skills during non-academic time, and it is also the time to help foster a love of reading. Strong literacy skills help support every academic arena and promote independence in learning.

Summer Reading requirements:

- Each grade level has two (2) mandatory books for summer reading. Please be aware that all students will be required to take an Accelerated Reader assessment on their summer reading when they return to school in August.
- One project is required and will be appropriate for the grade level. Directions are available on the CCA website.
- Reading additional grade level books are **optional** and can apply to the Principal's Summer Challenge. Directions are available on the CCA Website.
- If you would like to purchase the recommended, but **optional**, summer workbook to keep skill sharp, use the following link and select your child's rising grade level: www.summerskills.com
